

The New Dimension of Wellness

BioWell

Multifunktional Multilayer Universal Disc

- ⊙ Natural and holistic optimisation of water, food and beverage
- ⊙ Natural and holistic transformation of (electro-)stress from various sources
- ⊙ Natural and holistic harmonisation of rooms / environment (sleeping room, work place...)

10,4 mm diameter, 1,9 mm thickness – ca. 200 g

- ✓ Proven mineral compositions – new and unique combination
- ✓ Holistically optimised (Holo fractographic Technology)
- ✓ Unbreakable – scratch-proof surfaces
- ✓ High value design
- ✓ Food safe
- ✓ Permanently effective

Revolutionary Development

The **BioWell** universal disc is a revolutionary new and further development after many years with the proven ceramic disc for the optimisation of water and food. Key features are not only the high value design and being unbreakable (!), but also a highly increased effectiveness – in many ways. We have **combined the proven mineral compositions (there are 21 different minerals/stones in total included) for the optimisation of water and for the transformation of electro-stress on a matrix of carbon fibre.**

Therefore, the spectrum of effects is much larger – and makes the new disc indeed multifunctional and universally applicable!

Manifold Applications

**Put the BioWell universal disc for example
on the table, into the fridge,
in your sleeping room,
at your working place, into the car... –
or take it with you when travelling!**

The effects appear in a circumference of several meters.

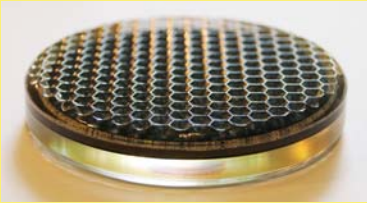

So you need not place e.g. your drink directly on the disc to profit from the harmonising and optimising effects.

And you may not need to buy other products, e.g. to harmonise

Two Versions

The BioWell universal disc is available in two versions:

„CLEAR“ with a even surface – and „STRUCTURED“ with a 3-D bottom side with a hexagonal pattern. The Structured disc is about 30% stronger and faster in its efficiency.

Mineral disc on a matrix of carbon fibre with two bioactive mineral compositions, embedded in high quality, food safe acrylic glass – 3-D bottom side of the version „STRUCTURED“ with hexagonal pattern (-> hexagonal water)

Holistic Efficiency through „Holofractographic Crystal Technology“

Another feature of the new **LIVING WELL universal disc** is the **(w)holistic** character. It is harmonising at all levels – body, soul and mind.

E.g. we have implemented the „**Flower of Life**“ into the design and as a component for the effectivity – a symbol that is well known in many cultures for thousands of years. This symbol is also used for harmonising and energising purposes. According to newest findings of quantum physics it represents the basic fractal order of the cosmos, the fundamental structure of space-time. It is connected with the underlying quantum field, energy field, spirit – however you choose to call it.

Effects

- ✓ Natural and holistic optimisation of water, food and beverage
- ✓ Improvement in taste
- ✓ Improvement of digestibility
- ✓ Positive effects on health and growth of animals and plants
- ✓ Support of holistic therapies –
balancing of chakras, meridians, organs
- ✓ Supporting effect in meditations
- ✓ Natural transformation of (electro-)stress from various sources
- ✓ Natural harmonisation of rooms – sleeping room, car, work place...
- ✓ Harmonisation of the environment – wherever you are
- ✓ Along with many more possible applications

We appreciate your feedback about your experiences!
